Attachment Name:

Preliminary Statement

Associated SNUN Section Number(s):

Part I, Item 1.b.

Inhance Technologies, LLC (also referred to as “Inhance” or “the Company” herein) submits two consolidated SNUN applications. There are nine long-chain perfluoroalkyl carboxylates (LCPFACs) listed in the SNUR at 40 CFR §721.10536 that are relevant to the two consolidated SNUNs. The first SNUN includes Species 1-5, and the second SNUN includes Species 6-9.

The Company is submitting the SNUNs to address allegations of noncompliance with the LCPFACs SNUR made by EPA. The SNUNs are neither an admission of fact nor agreement that the SNUR is legally applicable to the Company’s fluorination of fuel tanks and fuel storage containers.
